"I am pleased with the progress of our investment portfolio and that we have been able to raise new funds at a small discount to the current market price. Markets continue to be uncertain and this situation is unlikely to improve in the short term. We therefore believe that it is prudent to raise some additional funds at this point in order to ensure that, we are both well-positioned against the background of continued market uncertainty and a more attractive investment partner, better able to take advantage of opportunities as they arise."
